Plug Into the Power of One

SD5200T Thunderbolt 3 Docking Station

At last, the cross-platform compatible dock with Thunderbolt 3 connectivity has arrived. Engineered to support mixed computing environments with high transfer speed requirements, the Kensington SD5200T Thunderbolt 3 Docking Station plugs into the power of one – one dock for more power, more bandwidth, and more compatibility. Providing up to 40Gbps data transfer with 85W power delivery on a single connection, support for 5K or dual 4K monitors, and robust daisy-chaining options, the SD5200T Thunderbolt 3 Docking Station is a game-changing dock.

Features & Benefits:

- **Cross-Platform Compatibility** allows this Thunderbolt 3 dock to work for both Windows and Mac users

- **Thunderbolt 3 Technology** allows a single port to provide up to 40Gbps of data speed, and connectivity to Thunderbolt-enabled devices, billions of USB devices, and UHD displays – all while supplying power

- **5K or 4K for Dual Monitors** supports the crisp resolution, contrast and color depth of Ultra HD via DisplayPort or HDMI (adapters sold separately)

- **85W Power Delivery** to charge the host device (Host device must be designed to support Power Delivery for dock to provide charging)

- **Productivity Ports** connect to peripheral accessories via one USB-C 5Gbps port with 15W power, two USB 3.0 ports (one of which is a 2.1A charging port), one DisplayPort++, one Gigabit Ethernet port, and 3.5mm headphone and microphone jacks

- **Daisy Chaining** allows connection for up to 5 additional Thunderbolt-enabled devices

- **Kensington Security Slot** protects your technology investment via easy implementation of a cable lock

- **Zero Footprint Mounting** provides the option to attach the dock to the back of any VESA® compatible external monitor to accommodate space-challenged workspaces (mounting plate (K33959WW) sold separately)
